

2018 July 16th

Object : Winners of the 2017 « Académie d'Excellence » call for projects.

Ladies and Gentlemen,

The "**Académie d'Excellence**" call for projects aims to reinforce the excellence of the education courses at the Aix-Marseille site through support for 4 types of targeted actions :

- Action 1: Supporting pedagogical transformation and innovation
- Action 2: Amplify the internationalisation of education courses
- Action 3: Include interdisciplinarity and intersectorality in education provision
- Action 4: Initiate collaborative projects around the pedagogical uses of digital technology

For the 2017 call for projects, 64 applications have been submitted. The A*Midex steering committee of **2018 July 16th** approved **30 projects** for 2 years (2018-2020) for a total budget of **2.8 million euros**, a **selection rate of 47%**.

A letter will soon be sent to all project leaders informing them of the results of their evaluations. For the projects that have received the label, project leaders will also be informed of the budget allocated by the A*Midex Foundation.

Project title	Project officer
Alternance généralisée et apprentissage en action (Train'ing)	Claire Deumié
Création d'un FabLab du Mouvement Humain	Guillaume Rao
Labor jus pedagogic program in AMU and beyond : Labor Jus Master	Alexis Bugada
THE PLINIUS CURSUS - Ph.D. PROGRAM "MICROBIOLOGIE – MARSEILLE – MEDITERRANEE"	Christophe Bernard
