BIOMEDICAL IMAGING SCHOOL 2023

Institut d'Etudes Scientifiques, Cargèse

Marseille Imaging Institute organizes his annual Biomedical Imaging school

Institut d'Etudes Scientifiques in Cargèse, Corsica

From 29th October to 4th November, 2023

This school aims to present the different biomedical imaging modalities :

- MR Imaging
- X-RAY Imaging
- OPTICAL Imaging
- ACOUSTIC Imaging
- MULTIMODAL Imaging
- NUCLEAR MEDICINE Imaging
- ARTIFICIAL INTELLIGENCE for Imaging

Different formats and events of the week

INTRODUCTORY COURSES

In each modality, the speakers will introduce the thematic field and then develop aspects of the state of the art and the most recent advances.

THEMATIC COURSES

In each modality, the speakers will focus on advanced technology and/or advanced research.

PUBLIC CONFERENCE

This session will be open to the general public in French language. Pr Eric GUEDJ will speak about "long COVID" and involvement of TEP imaging.

POSTER SESSION

In the exhibition hall, students will have the chance to present their thesis work in poster format in the exhibition hall.

ROUND TABLES

Exchange with experts on two themes.

Theme 1: from an idea to the patient

Theme 2: roles and limitation of AI applications.

EXCURSIONS

An outing to the Calanques de Piana will be organized to discover a UNESCO site.

COCKTAIL PARTY

A social event will be organize on Thursday evening, with delivery of Students Awards.
